DETAILED ACTION

Response to Amendment

Applicant's amendments, filed 6/24/2008 after final rejection, are accepted and appreciated by the examiner. Applicant has canceled claims 3, 6, 9-10 and 16, amended independent claims 1, 5 and 15 and placed claim 8 into independent form. In response, all previous rejections of the claims are hereby withdrawn.

Allowable Subject Matter

Claims 1-2, 4-5, 7-8, 11-15 and 17-20 are allowed.

The following is an examiner's statement of reasons for allowance:

Applicant has amended the claims to include subject matter previously indicated as allowable into each independent claim. The previous rejection under 35 USC 112 was indicated as being withdrawn in the advisory action of 6/16/2008, and claims 3, 8, 10, 16 and 20, including the use of a feedback signal in a manner not found to be disclosed or suggested by the prior art of record, as indicated on 6/16/2008, was included into each independent claim.

With respect to claims 1, 5 and 15, new prior art Kusakabe (US pat 6269012) discloses the use of a feedback voltage and calculated input power (together) to regulate a power supply (Fig 1 "tem 3). However, Kusakabe does not disclose or suggest summing these signals.

Additionally, it is noted that the claims as amended are neither anticipated nor obvious in view of the prior art cited in the parent PCT application PCT/US04/06281, which have been reviewed and appreciated by the examiner. Specifically, none of these references disclose or suggest a voltage feedback from the supplied-side of a power supply device being added to a

Art Unit: 2863

supply-side power (as in claims 1, 5 and 15) OR dividing the supply-side power signal by the supplied-side feedback signal (as in claim 8).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
